Prashant G.C.

Full Stack Developer | Portfolio.

Kathmandu, Nepal | 9867075100 | gcprashant555@gmail.com | github.com/PrashantGC00 | LinkedIn: Prashant G.C.

SUMMARY

Full-stack developer with experience across the MERN and Hono/Prisma stacks, building scalable web applications, reusable UI components, and backend systems tuned for performance and reliability. Comfortable moving between frontend product work and backend API/database design.

EXPERIENCE

Junior Full Stack Developer — Acid Integrations *May 2025 – Present*

- Build and maintain frontend and backend features for a content management system using TypeScript, React, Node.js, Express, Redis and Hono.
- Built reusable UI components and dynamic form handling by extending Radix UI primitives with Formik.
- Designed and integrated MySQL and PostgreSQL data layers using Prisma ORM for efficient, type-safe data management.
- Implemented authentication and authorization with Keycloak (OAuth 2.0 / OpenID Connect).
- Partnered with cross-functional teams to ship and maintain CMS features end-to-end.
- Designed application architecture and database schemas to support scalable, maintainable, and efficient CMS features.

Freelance Full Stack Developer *Nov 2024 – May 2025*

- Delivered responsive full-stack web applications for clients using the MERN stack.
- Managed project planning and delivery independently using Scrum methodology in a client-facing role.

C Programmer Intern — PL Multimedia *Jul 2023 – Sept 2024*

- Implemented multi-threaded and multi-process C programs in UNIX environments.
- Developed an image-processing program that improved computation efficiency.
- Collaborated within a team to deliver assigned tasks against strict deadlines.

Design Intern — My Second Teacher *Mar 2023 – Sept 2024*

- Produced design concepts using Adobe Creative Suite under tight deadlines.
- Presented design concepts to team leads and collaborated with international teams.
- Contributed creative input that improved overall project design quality.

PROJECTS

11 Hype — MERN

- Built custom, dynamic React components and role-based user profiles for a coaching platform.
- Implemented form validation and input handling with Formik; data layer built with Prisma ORM and MySQL.

Booking Management System — MERN

- Built a responsive booking interface with React, Material UI, and TailwindCSS, with animations powered by Framer Motion.
- Developed backend logic with Node.js and Express.

Kanban Board — React / TypeScript

- Built a drag-and-drop Kanban board using React DnD, with reusable, maintainable components and a focus on UI responsiveness.

Multiplayer Wordle Duel — React / Go

- Built a real-time multiplayer word-guessing game with a React frontend and Go backend.
- Implemented game logic and server-side communication to support live multiplayer sessions.

Myscript Interpreter — Go

- Built an interpreter for a custom scripting language supporting arithmetic and print operations.

Image Sharer — Next.js / Go (Pasteboard-inspired)

- Built an image-sharing application with React, Go, and Redis, including file upload and storage.
- Implemented Redis-based expiration handling to automatically clean up expired image files.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Go, Python, C

Frameworks & Libraries: React, Node.js, Express.js, Hono, Formik, Radix UI, Tailwind CSS, Framer Motion, Zustand, Kysely, Three.js / react-three-fiber / drei, Fiber, Gin, GORM

Databases & ORM: PostgreSQL, MySQL, MongoDB, Oracle SQL, Prisma

Tools & Cloud: Git, VS Code, AWS, Docker, Redis, RabbitMQ

EDUCATION

BSc (Hons) in Computing *2022 – 2025*
Islington College — London Metropolitan University, Kamalpokhari, Kathmandu

+2, Science (Biology with Additional Math), GPA 3.39 *2019 – 2021*
Trinity International College, Kalika Marg, Kathmandu

SEE, GPA 3.55 *2009 – 2019*
St. Xavier's School, Jawalakhel, Lalitpur

CERTIFICATIONS

- CS50x — Harvard University
- AWS Cloud Quest: Cloud Practitioner
- AWS Academy Graduate — Cloud Foundations
- AWS Academy Graduate — Data Engineering
- AWS Academy Graduate — Machine Learning Foundations
- AWS Academy Graduate — Machine Learning for Natural Language Processing
