Computing graduate with experience in MERN stack. Skilled in developing scalable web applications, building dynamic UI components, and optimizing backend systems for performance and reliability.

## Experience

### Junior Full Stack Developer

May 2025 – Present

- Developing full-stack web applications using TypeScript, JavaScript, React, NodeJs, Express and Hono.
- Built reusable custom UI components and extended Radix-UI for dynamic form handling with Formik.
- Integrated MySQL and PostgreSQL database with Prisma ORM for efficient data management.
- Implemented authentication and authorization using Keycloak (OAuth 2.0/OpenID Connect).
- Collaborated with cross-functional teams to develop and maintain content management systems (CMS).

### Freelancer

Nov 2024 – May 2025

- Developed responsive web applications using the MERN stack.
- Followed SCRUM methodology for project planning and delivery.

### C Programmer Intern | PL Multimedia

July 2023 – Sept 2024

- Implemented multi-threaded and multi-process C programs in UNIX environments.
- Developed an image processing program that optimized computation efficiency.
- Collaborated in a team to complete assigned tasks under strict deadlines.

### Design Intern | My Second Teacher

Mar 2023 – Sept 2024

- Created design concepts using Adobe Creative Suite, delivering under tight deadlines.
- Presented design ideas to team leaders and collaborated with international teams.
- Contributed creative inputs that enhanced the overall project design quality.

## Education

### BSc. (Hons) in Computing

2022 - 2025

Islington College  
London Metropolitan University  
Kamalpokhari, Kathmandu

### +2 (GPA: 3.39)

2019 - 2021

Science (Biology with extra math)  
Trinity International College  
Kalika Marg, Kathmandu

### SEE (GPA: 3.55)

2009 - 2019

St. Xavier's School Jawalakhel  
Jawalakhel, Lalitpur

## Skill Summary

---

- **Soft Skills**

- Active Listener,
- Strong Communication,
- Team Collaboration,
- Analytical Thinking,
- Decision Making,
- Multitasking

- **Technical Skills**

- **Language:** JavaScript (ES6+), TypeScript, Go, python, C
- **Framework and Libraries:** React, Node.js, Express.js, Formik, Radix-UI, TailwindCSS, Framer-Motion, fiber, Gin, Gorm, Prisma, Three, Three-fiber, Three-drei, Hono
- **Databases:** MySQL, MongoDB, Oracle SQL, PostgreSQL
- **Tools:** Git, VSCode, AWS, Redis, docker, RabbitMQ

## Certification

---

### CS50x | Harvard University ([Certificate](#))

#### AWS Certification

- [AWS Cloud Quest: Cloud Practitioner](#)
- [AWS Academy Graduate - AWS Academy Cloud Foundations](#)
- [AWS Academy Graduate - AWS Academy Data Engineering](#)
- [AWS Academy Graduate - AWS Academy Machine Learning Foundations](#)
- [AWS Academy Graduate - AWS Academy Machine Learning for Natural Language Processing](#)

## Projects

---

### 11 Hype (MERN)

- Created custom React components for an interactive UI.
- Used Prisma ORM
- MySQL database
- Build User Profiles dynamic for various roles
- Create Frontend UI for coaching practices
- Implemented form handling using Formik to streamline user input validation.

### Booking Management System (MERN)

- Developed frontend with React, Material UI, and TailwindCSS for a responsive interface.
- Used Node.js and Express.js for backend logic with animations powered by Framer Motion.

### Kanban board (React/Typescript)

- Built a drag-and-drop Kanban board using React DnD and TypeScript.
- Implemented scalable and maintainable components with improved UI responsiveness.

### **Multiplayer Wordle Duel (React-Go)**

- Built a real-time multiplayer Wordle-style game with a React frontend and Go backend.
- Implemented game logic and server-side communication to support multiplayer sessions.
- Designed the application around reusable frontend components and efficient backend APIs.

### **Myscript interpreter (Go)**

- Built a simple interpreter for a custom scripting language in Go that handles arithmetic operations and simple print operations.

### **Image Sharer (Pasteboard inspired) (Next-Go)**

- Built a Pasteboard-inspired image-sharing application using React, Go, Redis.
- Implemented file upload and storage functionality with a Go backend.
- Implemented Redis-based expiration handling to automatically clean up expired image files.
